

Zenith can supply a full range of adaptors according to our customer's requirements.

Our adaptors are available in polished OD/ID and unpolished OD/ID.
We can weld any combinations of adaptors in our in-house Fabrication facility.

We offer combinations such as

- NPT/Tri Clamp Adaptors. 21MP/22MP
- MPS/Tri Clamp Adaptors
- RJT/BSP Adaptors (taper, flat face and cone)
- RJT/IDF adaptors
- RJT/SMS adaptors
- RJT/DIN adaptors
- RJT/Tri clamp adaptors
- RJT/Camlock adaptors
- RJT bends/tees/reducers (c/w weld M/F union)

Other combinations available with all ends listed as follows: IDF, SMS, DIN, Clamp, ILC Flange, IBC, Weld and ACME adaptors.

All are available in 316L. 304 is also available.
They are available in various sizes from ½" to 12" – DN10 to DN300.
A full range of ASME BPE adaptors is also available.

Technical Information:

- Diameters: BS-US - 1/2" OD – 8" OD and DN 10-DN150. SMS - and ISO 2037 Surface Finish: Polished OD/ID.
- Materials: Available in AISI 304 (1.4301) and 316L (1.4404) stainless steel.
- Specifications: BS, SMS, DIN, US 3A, ISO, ASME BPE.

Special Features:

- Full material traceability is guaranteed during the manufacturing process.
- Polished fittings are supplied wrapped in plastic ensuring optimum cleanliness.
- Internal Bore: Fittings have a smooth, clean and crevice free ID.
- Certification: All fittings can be supplied with EN 10204 3.1 certification upon request
- Market leading quality products.
